

Developmental Music Programs for Early-Aged Children And The Adults Who Love Them!

Jennefier Patterson is the sole owner of **Romper Rhythms & Fun**. In January 2008, she purchased the program from Christy Mayfield. Jennefier Patterson actually has a legal and insurance background but grew up in a house full of music and singing and she has won many voice competitions and has sung our National Anthem at a Tampa Bay Lightning Game. Jennefier has been performing since the age of 3 and is no stranger to crowds or music. Jennefier attended classes with her two young boys and saw how much the children loved the program. When Jennefier heard the program was going to end, she decided to make the purchase to continue it for the community.

Jennefier Patterson and Denise VanGelder are the instructors for Romper Rhythms & Fun. Combined, our instructors have more than 10 years experience teaching young children. Both instructors have been involved with Romper Rhythms and Fun, as participants and instructors for more than 5 years. They are very excited to bring this program to your communities.

Romper Rhythms & Fun is educational for parents and caregivers as well! By actively participating in the programs, you will learn developmentally appropriate expectations for your children and techniques with instruments and music that will promote their ability to learn and remember. Repetition and consistency is the key to learning in early childhood education so you will hear familiar songs in each of our formats. Our introduction and our closing songs will always be the same. However, the cognitive portion of our classes will change every 8 weeks.

Most importantly, you will enjoy sharing with your child the world of music, fun, and imagination that **Romper Rhythms & Fun** brings!
